According to Article 9 of REMIT, market participants entering into transactions which are required to be reported to the Agency under REMIT shall register with the national regulatory authority (NRA) in the Member State in which they are established or resident in or, if they are not established or resident in the Union, in a Member State in which they are active. Not later than 3 months after the date on which the Commission adopts the implementing acts, NRAs shall establish national registers of market participants.

NRAs should ensure that market participants are provided with information on how to register. For this purpose, and for the purpose of ensuring accuracy in the European register of market participants established by the Agency, the Agency is making available a Registration User Manual (RUM) to NRAs.

The Registration User Manual is only for the internal use of NRAs and not for publication. The Agency will not make it publicly available.

This document contains the first release of the Registration User Manual to NRAs. The RUM provides guidance on how the fields in the registration format should be populated by market participants. NRAs are invited to use RUM as a basis when providing guidance to market participants on how to register. The manual will be updated periodically based on the feedback from NRAs.

Please note that the manual is prepared by the Agency and provided to NRAs in line with the Section 2.2 of SLA.

Introduction

Regulation (EU) No 1227/2011 of the European Parliament and of the Council of 25 October 2011 on wholesale energy market integrity and transparency (REMIT) imposes obligation on wholesale energy market participants entering into transactions that are required to be reported to the Agency to register with the competent National Regulatory Authority (NRA).

The registration will be done either via the Centralised European Register of Energy Market Participants (CEREMP) or via other national registration systems offered by NRAs. This document is aimed at market participants registering with NRAs that are using CEREMP system to manage their own national register.

Having in mind that market participants are obliged to register at national level, and not directly with the Agency, registration of market participants under REMIT is first and foremost a national process.

The purpose of this document is to present to market participants legal and technical guidance on the registration of market participants.

The first chapter gives an overview on who should register, when and what data is required. It should be noted that further information can be obtained from the ACER Guidance.¹

The second chapter provides guidance on how to register and manage registration(s) via using CEREMP. Prior to registration the market participant has to nominate an authorised person to act on its behalf. This person, also referred to as MP-user, will manage the registration and changes or updates of market participant(s).

The third chapter provides detailed description of selected fields from the registration format; namely ultimate controller, person responsible for operational decision, person responsible for trading decision and contact for communication.

As the registration of Market Participants is a task of NRAs, these might require additional information or set up additional rules for the registration process, that are not presented in this document.

1 Legal background for registration of Market Participants

1.1 What is REMIT?

REMIT prohibits market manipulation and trading on inside information in wholesale energy markets. It was published in the Official Journal of the European Union on 8 December 2011 and entered into force 20 days following its publication, i.e. on 28 December 2011.

Article 9 of REMIT imposes an obligation on wholesale energy market participants entering into transactions that are required to be reported to the Agency to register with the competent NRA.

1.2 Which market participants are obliged to register?

According to Article 9(1) of REMIT,

“Market participants entering into transactions which are required to be reported to the Agency in accordance with Article 8(1) shall register with the national regulatory authority

[...].”

According to Article 2(7) of REMIT,

“market participant” means any person, including transmission system operators, who enters into transactions, including the placing of orders to trade, in one or more wholesale energy markets.”

In Chapter 3.4 of ACER Guidance (3rd edition), the Agency provides its understanding of the notion of market participant as defined in Article 2(7) of REMIT.

1.3 With which NRA should market participants register?

According to Article 9(1):

“Market participants entering into transactions which are required to be reported to the Agency in accordance with Article 8(1) shall register with the national regulatory authority in the Member State in which they are established or resident, or, if they are not established or resident in the Union, in a Member State in which they are active.”

According to Article 2(10) of REMIT, NRAs means a national regulatory authority designated in accordance with Article 35(1) of Directive 2009/72/EC or Article 39(1) of Directive 2009/73/EC.

1.4 What information is market participants required to provide?

Article 9(3) of REMIT requires the Agency, in cooperation with NRAs, to determine and publish, by 29 June 2012, the format in which NRAs should transmit registration information on market participants to the Agency.

On 26 June 2012, the Agency adopted ACER Decision No 01/2012 relating to the registration format pursuant to Article 9(3) of REMIT (Decision)², determining the registration format to be used for the establishment of the European register of market participants.

The registration format consists of 5 sections:

- Section 1: Data related to the market participant

² http://www.acer.europa.eu/Official_documents/Acts_of_the_Agency/Directors%20decision/ACER%20Decision%2001-2012.pdf

- Section 2: Data related to the natural persons linked to the market participant
- Section 3: Data related to the ultimate controller or beneficiary of the market participant
- Section 4: Data related to the corporate structure of the market participant
- Section 5: Data related to the delegated parties for reporting on behalf of the market participant

All market participants entering into transactions which are required to be reported to the Agency in accordance with Article 8(1) are required to provide information as defined by the Decision.

1.5 When is the deadline for registration to be submitted?

According to Article 9(4) of REMIT,

“Market participants (...) shall submit the registration form to the NRA prior to entering into a transaction which is required to be reported to the Agency in accordance with Article 8(1).”

Thus, market participants must submit the registration form before entering into any transaction which is required to be reported to the Agency. Consequently, market participants entering into a transaction which is required to be reported in accordance with Article 8(1) of REMIT prior to submitting the registration form may be in breach of Article 9 of REMIT.

In accordance with the ACER Decision No 01/12, the registration process will be split into two phases for market participants registering before the Agency has published for the first time the list of market participants in the European register.

In the first phase, such market participants shall provide information relating to Sections 1 (data related to the market participant), 2 (data related to the natural persons linked to the market participant), 3 (data related to the ultimate controller or beneficiary of the market participant) and 5 (data related to the delegated parties for reporting on behalf of the market participant) of the registration format. The Agency considers that any person who, after six months from the adoption of the implementing acts, enters into a transaction which is required to be reported to the Agency without having completed the first phase of the registration process may be in breach of Article 9 of REMIT.

In the second phase, such market participants shall provide the information relating to Section 4 (data related to the corporate structure of the market participant) of the registration format. This information has to be completed within 3 months from the first publication of the European register. Any market participant who, after this deadline, enters into a transaction that is required to be reported to the Agency without having provided the information relating to Section 4 may be in breach of Article 9 of REMIT, even if the market participant has completed the first phase of the registration process and received an ACER code.

Any market participant registering after the Agency publishes for the first time the European register will be required to submit the information related to all the sections of the registration format before the registration form can be considered to be correctly submitted. This is likely to apply to persons that are not currently trading products required to be reported by the Commission’s implementing acts, i.e. ‘new’ market participants.

1.6 What is the ACER code?

As required by Article 9(2) of REMIT, each market participant registered under REMIT will be issued with a unique identifier (the "ACER code"). The ACER code will enable market participants to report data under Article 8 of REMIT. Market participants will also need the list of ACER codes in order to provide information relating to Section 4 of registration format (data related to the corporate structure of the market participants).

According to Article 9(4) of REMIT, market participants shall submit the registration form prior to entering into transactions which are required to be reported to the Agency in accordance with Article 8(1) of REMIT. The ACER code will be issued upon the transmission for the first time of the information in the national registers to the Agency, in accordance with the ACER Decision No 01/12.

1.7 ACER Guidance

The ACER non-binding Guidance provides further application of the definition in REMIT. The Guidance is deliberately drafted using non-legal terminology and does not provide an interpretation of REMIT. It is made public for transparency purposes.

1.8 Definition of document specific terms

3.1.1 New user account

To create a new CEREMP account, a NRA may require from person a documentation to prove the identity and the evidence of authorisation to make a registration of market participant.

NRA Home Page

Each NRA has a different, dedicated home page. The URL of the homepage follows the convention below:

https://<BASE_URL>/ceremp/home?nraShortName=XXXX&lang=YYYY

where XXXX is the NRA id (e.g. 10) and YYYY is the chosen locale (e.g. de_DE).

The locale is split by an underscore (“_”): the first part indicates the language, the second one indicates the country code. NRAs that deal with more than one language may have different home pages.

3.2.1 Phase 1

During the registration process you will have to follow five steps by filling in five sections required by the ACER Registration Format.

The registration process will be split into two phases for market participants registering before the Agency has published for the first time the list of market participants in the European register. In the first phase, such market participants shall provide information relating to Sections 1 (data related to the market participant), 2 (data related to the natural persons linked to the market participant), 3 (data related to the ultimate controller or beneficiary of the market participant) and 5 (data related to the delegated parties for reporting on behalf of

the market participant) of the registration format. In the second phase, such market participants shall provide the information relating to Section 4 (data related to the corporate structure of the market participant) of the registration format. This information has to be completed within 3 months from the first publication of the European register.

Any market participant registering after the Agency publishes for the first time the European register will be required to submit the information related to all the sections of the registration format before the registration form can be considered to be correctly submitted.

Birth State	State of birth (only for natural persons)

If “Person Type” is equal to “Legal person” the following additional field is required:

Legal Form	Legal form of the market participant (only for legal entities)
------------	--

It is also important to note that ACER and each NRA can ask for additional information by adding further fields to Section 1. Therefore, depending on decisions from ACER and from each NRA, Section 1 (and only Section 1) could have some additional mandatory or optional fields at the end of the form.

After entering Section 1, click the “**Next**” button to go to Section 2.

Codes Validation :

If one or more of the codes provided (EIC, BIC, LEI and GS1) during the registration is already associated to an existing and registered Market Participant the following message will be displayed:

3.7.2 Important Notice on the “Back” Buttons

The HTTP protocol does not allow the use of the back button that browsers and keyboards provide without resubmitting the request or the information contained in the form; thus, using these buttons is not recommended. The back buttons incorporated in CEREMP, on the other hand, are designed to manage it accordingly and thus are the recommended way to go back to a previous page.

4 The notions of “ultimate controller”, “person responsible for operational decisions”, “person responsible for trading decisions” and “contact for communications”

4.1 Ultimate controller

For the purposes of registration, the ultimate controller should be regarded as the legal or natural person that exercises significant influence over the management of the market participant through a controlling interest or voting power in that market participant or its parent, irrespective of whether the control is interposed directly or through a combination of other companies³. More specifically, the Agency regards a legal or natural person as an ultimate controller of a market participant if:

- It holds 10 % or more of the shares in the market participant or its parent OR
- It is able to exercise significant influence over the management of the market participant through a controlling interest in the market participant or its parent OR
- It is entitled to control or exercise control of 10 % or more of the voting power in the market participant or its parent OR
- It is able to exercise significant influence over the management of the market participant through their voting power in the market participant or its parent.

Such an ultimate controller is not necessarily a market participant for the purposes of REMIT and the ultimate controller must not be a subsidiary or branch of any other company. An ultimate controller might also be a municipal authority or sovereign state.

Where ownership of all class A shares in a market participant is beneficially held by individuals it is unlikely that the market participant will have an ultimate controller and therefore the company itself will be its own ultimate controller.

If an ultimate controller is a municipal authority or sovereign state or other public legal entity and the VAT number for that entity is not available, the VAT number of the market participant itself should be listed when providing details on ultimate controller.

4.2 Person responsible for operational decisions, person responsible for trading decisions and contact for communications

Market Participants registering for REMIT should include details of the following natural persons within their organisation:

³ “OECD Benchmark Definition of Foreign Direct Investment, Fourth Edition, 2008” and “OECD Handbook on Economic Globalisation Indicators, 2005”.

Responsible for trading decisions: the natural person that has the senior management role responsible for the market 'participants' trading functions.

Responsible for operational decisions: the natural person that has the senior management role responsible for the market participant's operations e.g. Head of generation or Head of physical operations.

Contact for communications: the natural person that acts as the day-to-day point of contact for REMIT related issues with ACER and/or the relevant NRA for that market participant. For example, this could be the relevant member of the regulation or compliance team.
